Length: 350mm, suitable cabinet depth 364≤N≤464;
Length: 400mm, suitable cabinet depth 464≤N≤564;
Length: 450mm, suitable cabinet depth 464≤N≤564

Cabinet cupboard

**Standard downward support**

2.5N

Note 1: The minimum net height of the cabinet is 164mm;
2. The minimum net depth of the cabinet is 150mm;
3. Panel height: 200-320mm; 4. Single under-bracing support: 1.5-2.5kg load-bearing capacity, adjustable according to panel weight.

Torque 160N

Note: The internal depth of the cabinet is not less than 230mm, and it has an arbitrary stop function.

Torque 60N

Note: The internal depth of the cabinet is not less than 230mm, and it has an arbitrary stop function.

**Tatami with Level 2 cushioning support**

Application 1. Suitable for 18mm thick tatami mats

Tatami flat board, door with cushioning

2. Do not press down hard to close. board

**Stop and flip anytime**

Torque 80N, stop at any time

Application: Cabinet internal control height 260mm and above

**Adjustable top-opening support for aluminum frame**

Application is only applicable to KM-716 model.

**Blum Fold-Up Folding Frame** **BL-SZ0 1**

Note 1: Suitable for 18-22mm thick glass, black/aluminum alloy frame glass.
2. The inner height of the upper cabinet should be ≥220mm, and the inner depth should be ≥278mm; the top of the cabinet...
The section needs to be reserved with a minimum of 188mm, and the shelf should be recessed by 30mm.
3. Applicable to areas with a total height of 560 ≤ 710 mm and a width of 800 mm ≤ 710 mm.
4. When the width of the valve is ≥901mm, install 3 valve hinges.

≤1200mm

**Heavy-duty flap hinge**

Application of heavy-duty flap hinges for flap gates.
Dimensional requirements: W≤750mm H≤500mm
D= 18mm

2. Heavy-duty flap hinge load capacity: 8KG-9KG 3. The flap can be fitted with a 5mm silver mirror; mirror size ◆ (flap width - 60mm) X

**Exhibition Top Turnaround**

Application of flap support type. Dimensional specifications: 250mm ≤ height ≤ 500mm.
750mm ≤ width ≤ 1200mm.

**Folding table accessories**

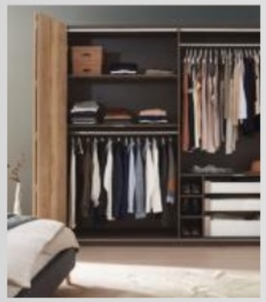
Specifications
1190mm

Application
600-900mm
Cabinet

Specifications and height

Application
1. Five-color can only be used on tablets.
2. Please refer to the technical documents for design specifications and guidelines.

Cabinet 670mm



**Hettich Folding**

Application 1. Five-color can only be applied to tablets.
2. Please refer to the technical documents for design specifications and guidelines.

Cabinet

415-700mm 18mm

Application
1. The shelf thickness should be 25mm, for use with wall screws; 2. The wall-mounted shelf depth should be 150-250mm;
3. Width 250mm or more.

Cabinet

**Hidden hang code**

46*104mm

Application

1. Suitable for wall cabinets with 12/18mm thick back panels.
2. Detailed process drawings.

Cabinet

High 80mm

Five-star support legs are used and installed under the cabinet bottom plate.

Cabinet

**Hettich Exposed Rebound Device**

Specification
38*78 .5*16 mm

**Hettich concealed bounce device**

Specification
70*10 mm

**Blum surface-mounted magnetic closure bounce**

**Blum concealed magnetic rebound device**

76*9 .7 mm
Note: Applicable scope: Full cover plate

**Coffee Top-Tier Ultimate YT007 Cargo Pole**

25*12.5*3000mm

If 1000mm < L ≤ 2000 mm, then one central support base and two side supports will be configured.

Cabinet

**Coffee Top-Tier YT007**

Specification
16*17.5*80mm

**Domestic concealed magnetic rebound device**

68*10mm
Note: Applicable scope: Full cover plate

**Domestic surface-mounted magnetic closure bouncer**

**Coffee Top-Tier HaYT007**

**Plate rebounder**

Specification
40*90*19 mm

**Heavy-duty reactor —40N**

Specification
126*45*14.5 mm

**Dark gray top trim YT008 hanging pole**

Specification
26.5*28*3000 mm

Application: Used for hanging items inside cabinets; requires anti-slip strips and matching edge banding.

Cabinet

**YT009 Cargo Pole**

Specification
26.5*28*3000 mm

Application: Used for hanging clothes inside cabinets; requires anti-slip strips and edge sealing strips of the same color.

**Glass Latte Multifunctional Jewelry Box**

**Latte Plate Style Shallow Storage Basket** **150mm**

**Latte Minimalist Trouser Hanger**

**Trouser hanger C**

**Brown Western-style small box**

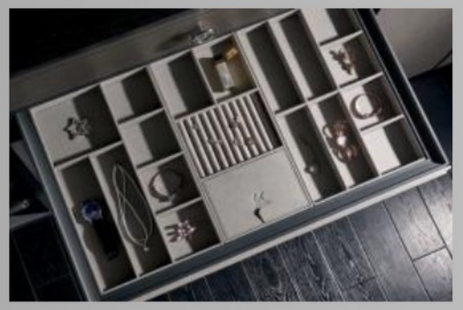
## Mat 6mm

## Password Drawer

Specifications: 762*440*155mm,
862*440*155mm
962*440* 155mm

## Single-layer watch winder

Specifications:
760*320*205mm,
860*320*255mm
960*320*255mm



## E-grade multi-functional storage box

Specifications: 764*484*66mm,
864*484*66mm,
964*484*66mm

## E-grade trouser hanger

Specifications: 764*484*66mm,
864*484*66mm,
964*484*66mm

Colors: Toffee Brown, Reddish Brown, Light Yellow Notes: The slide rails have built-in damping buffers.

## E-grade metal storage basket

Specifications: 764*484*217.5mm,
864*484*217.5mm
964*484*217.5mm

Colors: Toffee brown, reddish brown, auburn

## E-grade bottom storage box

Specifications:
764*484*66mm,
864*484*66mm
964*484*66mm

Colors: Toffee Brown, Reddish Brown, Light Yellow Notes: The slide rails have built-in damping buffers.

## Grade A interior storage box

Specifications: 564*465*110mm,
664*465*110mm,
764*465*110mm,
864*465*110mm

Color: Basket: Brown PU; Frame: High gray; Remarks: Slide rails with damping buffer.

## Folding Audition

## Full-length audition

### Electric flip-up folding door

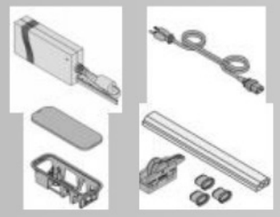
Remark
1. Includes power supply + energy-saving device + telescopic arm kit;
2. Packaging is done in three separate parts. (Cabinet)

### Blum electric drawer shelf set

Notes: 1. For use with Blum power supply kits and Blum electric drawer drive systems; 2. Bottom rails are required separately. Used in combination with drawers/motorcycle drawers.

### Blum electric drawer drive mechanism

Remark
1. For use in combination with Blum power supply sets and Blum electric drawer shelf devices;
2. A separate bottom rail is required for use with the drawer/rider drawer.



### Blum power supply kit

Note 1: This product is compatible with Blum electric drawer rack sets and Blum electric drawer drawers.
The drawer drive mechanism is used in combination.
2. A separate bottom support rail is required.
Used in combination with drawers/motorcycle drawers.

### Fingerprint Password Drawer

478*405*148mm
Cabinet

### Smart vanity mirror

Specification
960*1140*35mm
800*600*35 mm

Note: Because the mirrored text cannot rotate automatically, the height cannot be swapped.

### Blum deluxe high-speed drawer

450mm dee p

Remark
1. The cabinet's internal depth is ≥455mm, and its internal height is ≥230mm;
2. With cushioning, the left and right edges of the bottom need to be ground to 16mm.

### Blum deluxe pole inner high drawer

450mm dee p

Note 1. The internal depth of the cabinet is ≥455mm, and the internal height is ≥230mm;
2. With cushioning, the edges on both sides of the bottom need to be ground to ≥16mm;
3. No need to install a drawer.

### Blum deluxe rod low-pump

450mm dee p

Remark
1. The cabinet's internal depth is ≥460mm, and its internal height is ≥120mm;
2. With cushioning, the edges on both sides of the bottom need to be ground to ≥16mm;
3. No need to install a drawer.

### Blum deluxe rod with low-profile internal draw

Specification
450mm dee p

Note 1. The internal depth of the cabinet is ≥455mm, and the internal height is ≥140mm;
2. With cushioning, the edges on both sides of the bottom need to be ground to ≥16mm;
3. No need to install a drawer.

### The slim metal built-in drawer

450mm dee p

Note 1. The internal depth of the cabinet is ≥460mm, and the internal height is ≥120mm;
2. With cushioning, the edges on both sides of the bottom need to be ground to ≥16mm;
3. No need to install a drawer.

### H60

450mm dee p

Note 1. The internal depth of the cabinet is ≥460mm, and the internal height is ≥120mm;
2. With cushioning, the edges on both sides of the bottom need to be ground to ≥16mm;
3. No need to install a drawer.

### H101

450mm dee p

Remark
1. The cabinet's internal depth is ≥460mm, and its internal height is ≥160mm;
2. With cushioning, the left and right edges of the bottom need to be ground to 16mm.

### H183

450mm dee p

Note 1. The internal depth of the cabinet is ≥460mm, and the internal height is ≥120mm;
2. With cushioning, the edges on both sides of the bottom need to be ground to ≥16mm;
3. No need to install a drawer.

Accessories/Shelves Series

**Wine glass display stand**

Color: Matte aluminum frame 12mm

Remark
1. Fixed dimensions: 695/715 mm (width 500/600/700 mm) * 135 mm (depth); 2. A 12 mm back panel is required; all 12 mm back panel colors are available.
3. Compatible with 3000K/4000K LED wires
4. Can be used as a light-emitting backplate

**Shelf decoration rack**

Color: Aluminum frame: Matte black Notes Back panel: 12mm

1. Fixed dimensions: 695/715 * Width 500/600/700 * Depth 135mm;
2. Requires a separate 12mm backplate; compatible with all 12mm backplate colors; 3. Compatible with 3000K/4000K LED wires.
4. Can be used as a light-emitting backplate

**Grid decorative shelf**

Color: Aluminum frame: Matte black; Back panel: All 12mm

Remark

1. Fixed dimensions: 695/715 mm (width 500/600/700 mm, depth 135 mm);
2. Requires a separate 12mm backplate; compatible with all 12mm backplate colors; 3. Compatible with 3000K/4000K LED wires.
4. Can be used as a light-emitting backplate

**8-tier rotating shoe rack**

350*710*1400-1650mm storage;

**4-tier rotating shoe rack**

Used for shoe cabinet storage;

**Shoe cabinet folding stool (5 stars)**

Note: Applicable to cabinets with a diameter of 400-500mm (including 18mm side panels on the left and right sides) and a depth of 200mm or more.

**Red wine glass rack**

Double row, silver

**New wine rack**

Specification
564 / 664 / 764 / 864 mm

Remark
1. Only vacuum forming is possible;
2. Colors: Swiss white, Australian oak, American red cherry

**Acrylic wine rack**

295≤W≤964mm*295≤H≤964mm mm

**C-clip adjustable feet, style B**

Specification
H = 100~130mm, buckle L = 42mm

Note: Compatible with cabinet space gray baseboards and aluminum alloy baseboards.

**C-card adjustable heavy-duty model**

Specification

H=100~130mm

Buckle L=42mm

**Silver-colored transparent screen**

**300**

**Silver-colored transparent screen**

**500**

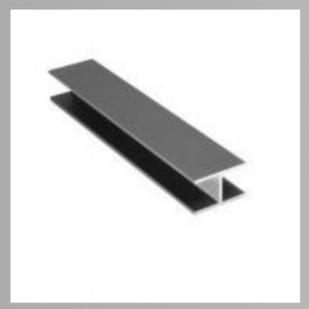
**Matte black transparent net**

**300**

**Cabinet baseboard with lights**

Specification

9.7*100*3000mm



**Cabinet Space Gray Baseboard Direct**

Specification

20*12.3*100 mm

**Cabinet Space Gray Baseboard Yin Yang**

Specification

31.8*31 .8*100mm

**Kitchen cabinet brushed matte baseboard**

9.5*100*3000mm

Specifications Remarks
1. It is equipped with a water-blocking strip at the bottom;
2. Limited to pairing with C-clip adjustable feet (B style);
3. A 100mm extension is required for splicing;
4. Baseboards should be at least 3 meters long; if longer, they need to be installed in sections.
5. The paneling area for the chrome panels is matched with the baseboard; the color is either positive or negative.

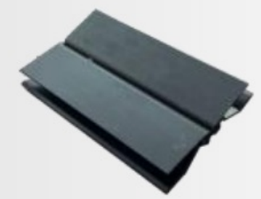
**Kitchen cabinet brushed matte black baseboard - inside and outside corners**

Specific ations Remarks | 20*12.3*100mm

1. It is equipped with a water-blocking strip at the bottom;
2. Limited to pairing with C-clip adjustable feet (B style);
3. For splicing, an additional 100mm is required for easy splicing; 4. The baseboard should be at least 3 meters long; if longer, it needs to be supplied in sections.
5. The paneling area for the chrome panels is matched with the baseboard; the color is either positive or negative.

**Kitchen cabinet brushed matte baseboard - direct**

20*12.3*100mm



**Kitchen cabinet brushed matte baseboard - any joint**

20*12.3*100mm

1. It is equipped with a water-blocking strip at the bottom;
2. Limited to pairing with C-clip adjustable feet (B style);
3. A 100mm extension is required for splicing;
4. Baseboards should be at least 3 meters long; if longer, they need to be installed in sections.
5. The panel joints of the Gorilla Glass panel are fitted with baseboard panels.

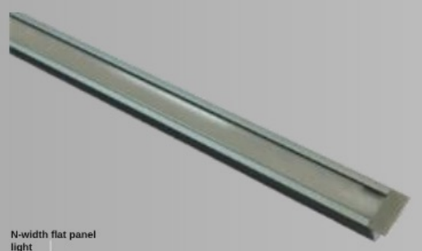
# LIGHTING SYSTEM

## Lighting system

| | |
|---|---|
| Lighting accessories | 133-136 |
| Control accessories | 137-138 |
| Power accessories | 139-140 |

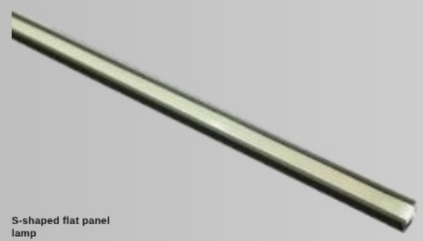
Lighting accessories



**N-width flat panel light**

Specification: 564 / 764 / 964 / 1200 /2200 / 2800mm

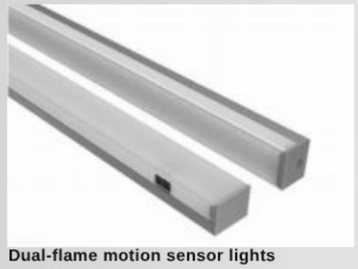
Temperature and power notes: 3000k/4000k
7.5w
1. Transformer and switch to be supplied separately; 2. Packing list: Lighting fixture - one item;



**S-shaped flat panel lamp**

Specification: 414 564 / 764/864 / 964 / 1200/2200 / 2800/3200mm

Temperature and power (Notes): 3000k/4000k
5w
It can be cut to size and is suitable for 12mm thick plates. A transformer, conversion cable and switch are required separately.



**Dual-flame motion sensor lights**

Specifications, Temperature, Power
762mm
4000k
8W

Note: Cannot be cut; includes a dual-head induction switch.

**Single-control sensor light**

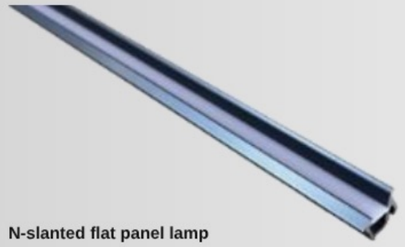
Specifications, Temperature, Power, Remarks: 564/764/964mm
3000/4000k
7W
The LED strip can be cut to have a wire end (sensor end).

**Glass shelf lights**

Specifications, Temperature, Power, Remarks: 564 / 964mm
3000k / 4000k
8w
1. A separate transformer and switch are required; 2. Three-sided light emission (design specifications); 3. Voltage DC 12V, line length 2000mm.

**Rear dual-layer panel lights**

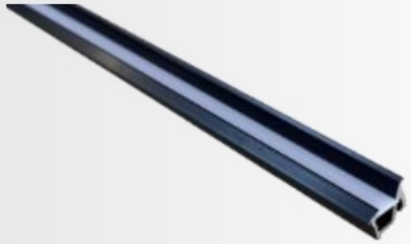
Specifications, Temperature, Power, Remarks: 414 / 564 / 764 / 864 / 964mm
3000k / 4000k
8w
1. A separate transformer and switch are required; 2. Voltage: DC 12V; Line length: 2000mm; 3. The 4000K temperature range is only 564/764/964 feet.



**N-slanted flat panel lamp**

Specification: 414 / 564 / 764 / 864 / 964
1200 / 2200/2800mm

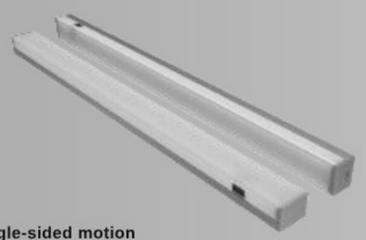
Temperature and power (Notes): 3000k/4000k
7.5W
It can be cut to size, but requires a separate transformer, conversion line, and switch.



Specification: 414 / 564 / 764 / 864 / 964
1200 / 2200 / 2800mm

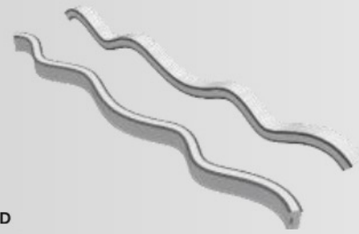
Temperature power: 3000k/4000k
8W

Note: LED strips can be cut to size.



**Single-sided motion sensor light**

Specifications, Temperature, Power, Remarks: 412 / 562mm
4000k
8W



**Flexible LED strip**

— Roll up, cut into single pieces

Specifications, Temperature, Power, Remarks: 5
3000k / 4000k
8w
1. Cutting length must be an integer multiple of 50mm;
2. A separate transformer and switch are required;
3. Each section is equipped with one LED flexible light strip with a solderless clip (length 2m).

**Single-sided touch sensor switch**

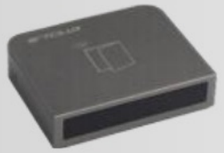
Power load: 36W

Attribute:
Gradually brightens and fades.

**Double-sided touch sensor switch**

Power load: 36W

property
3-8cm high, 30mm conical shape.



**Wireless single-sided touch sensor switch**

Specifications: 50*40*11.5mm; Power: Standby: <0.2mW, Operating: <60mW

property
1. Touch sensing distance: 1~3cm;
2. Remote control distance: 8m;

**Wireless dual-touch sensor switch**

Specification: 50*40*11.5 mm

Power consumption: Standby: <0.2mW, Operating: <60mW

property
1. Touch sensing distance: 1~3cm;
2. Remote control distance: 8m;

**Human body sensor switch**

Power load: 36W

Attributes: 35-second delay, gradually brightens and dims, limited distance ≤ 5 meters.

**Dimmable touch switch**

Power load: 36W

The sensor head is embedded in the board.

**Wireless hand-scan sensor switch**

Specification: 50*40*11.5 mm

Power consumption: Standby: <0.2mW, Operating: <60mW

property
1. Hand-scanning distance: 1~3cm;
2. Remote control distance: 8m;

**Wireless touch sensor switch**

Specification: 50*40*11.5 mm

Power consumption: Standby: <0.2mW, Operating: <60mW

property
1. Touch sensing distance: 0m;
2. Remote control distance: 8m;

**Scan-to-sensor switch**

Power load: 36W

Attribute:
Gradually brightens and fades.

**N-Dimmable Touch Sensor Switch**

Power load: 36W

Attribute:
Hole position φ8mm.

**Wireless human body sensor switch**

Specification: 50*40*11.5 mm

Power consumption: Standby: <0.2mW, Operating: <60mW

property
1. Human body sensing distance: ≤3m;
2. Remote control distance: 8m
3. Sensing angle 60°
